Staff is evaluating the possibility of initiating RAD contracts for developments within the DHC portfolio including the Mixed Finance Projects. A letter of Interest has been received by HUD (See B.2 page 8). The completion of a self-development plan will allow DHC to partner with private/public entities and compete for financial assistance including but not limited to Low Income Housing Tax Credits, grants, traditional equity, New Market Tax Credits and conventional financing. Low Income Public Housing Deconcentration Policy

Deconcentration of Poverty and Income-Mixing
Steps for Implementation
To implement the statutory requirement to deconcentrate poverty and provide for income mixing in covered developments, DHC must comply with the following steps:

DECONCENTRATION OF POVERTY AND INCOME-MIXING
DHC"s admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income residents into lower income developments and lower income residents into higher income developments, where possible. Gross annual income is used for income limits at admission and for income-mixing purposes.

Deconcentration Methodology
DHC shall admit lower income families to higher income developments and admit higher income families to lower income developments using the following steps:

Step 1: DHC will annually determine the average income of all families residing in all general occupancy (family) developments including families residing in developments approved for demolition or conversion to resident-based assistance and families residing in public housing units in mixed-finance developments.
Step 2: DHC will annually determine the average income of all families residing in each building of each general occupancy development.
Step 3: DHC will annually characterize each building of each general occupancy development as higher income or lower income based on whether the average income in the building is above or below the overall average.
Step 4: DHC will determine which families on the waiting list have incomes higher than the DHC-wide average and designate these families “higher income families,” and which have incomes lower than the DHC-wide average and designate these families “lower income families.”
Step 5: When a unit becomes available in a higher income building, DHC shall skip families on the waiting list if necessary to reach a lower income family to whom it will offer the unit. When a unit becomes available in a lower income building, DHC shall skip families on the waiting list if necessary to reach a higher income family to whom it will offer the unit. Skipping shall be applied to the site-based waiting lists. If a waiting list does not contain a family in the income category to which the unit is to be offered, DHC shall offer the unit to a family in the other income category.

Definition of Building for Purposes of Deconcentration

For purposes of deconcentration, a “building” is one or more contiguous structures containing at least 8 public housing units. For scattered sites and small developments, if a development contains no structures that qualify as a building, the deconcentration requirement is applied to the entire development as if the development were a building. If DHC has provided the family that resided in public housing on the site of a mixed finance or other development the right to return to that development after revitalization, the deconcentration policy is inapplicable to that family. A family has the sole discretion whether

to accept an offer of a unit made under the deconcentration policy. DHC shall not take any adverse action toward any eligible family for choosing not to accept an offer of a unit. DHC shall uniformly limit the number of offers received by applicants. Nothing in the deconcentration policy relieves DHC of the obligation to meet the income targeting requirements.

DHC Incentives for Higher Income Families
DHC may offer certain incentives to higher income families willing to move into lower income developments.

Order of Selection
Families will be selected from the waiting list based on preference. Among applicants with preferences, families will be selected on a first-come, first-served basis according to the date and time their complete application is received by DHC and the ranking of their preference as defined in this policy.
When selecting applicants from the waiting list, DHC will match the characteristics of the available unit (unit size, accessibility features, unit type) to the applicants on the waiting lists. DHC will offer the unit to the highest ranking applicant who qualifies for that unit size or type, or that requires the accessibility features.
By matching unit and family characteristics, it is possible that families who are lower on the waiting list may receive an offer of housing ahead of families with an earlier date and time of application or higher preference status.

Factors such as deconcentration or income-mixing and income targeting will also be considered in accordance with HUD requirements and DHC policy.

Chapter 12, Section 12-IV.E. (Transfer Policy, Deconcentration)

12-IV.E. DECONCENTRATION

If subject to deconcentration requirements, DHC will consider its deconcentration goals when transfer units are offered. When feasible, families above the Established Income Range will be offered a unit in a development that is below the Established Income Range, and vice versa, to achieve DHC‟s deconcentration goals. A deconcentration offer will be considered a “bonus” offer; that is, if a resident refuses a deconcentration offer, the resident will receive one additional transfer offer.

Housing Choice Voucher Plan Deconcentration Policy

Chapter 1, Section 1-2B(4) (HCV Partnerships, Owner Outreach)

DHC will make a concerted effort to keep private owners informed of legislative changes in the HCV Program, which are designed to make the HCV Program more attractive to owners. DHC desires owners of decent, safe and sanitary housing units to lease to HCV families. To ensure greater mobility and housing choice, DHC will maintain and periodically update a list of interested landlords/list of units available for the HCV Program within its jurisdiction.

The list of available units will be readily available for applicant briefings and participants searching for housing. DHC will highlight properties located in <10% de-concentrated areas as a means of notifying HCV Program applicants and participants of their housing choices in these areas.

DHC will actively recruit property owners with property located outside areas of poverty or minority concentration, and if applicable, will grant or apply for exception Payment Standards to make housing located outside of areas with high poverty and minority concentration available. Additionally, DHC will periodically evaluate the distribution of assisted families to identify areas within the jurisdiction where owner outreach should be targeted.

Chapter 2, Section 2-3E (Affirmatively Furthering Fair Housing)

DHC will implement procedures to expand housing opportunities in areas that do not have undue concentrations of poverty and provides families with greater housing options. DHC promotes the de-concentration of poverty.

DHC certifies that its Admin Plan does not include a residency preference for selection of families to participate in its HCV Program.

DHC may maintain and/or increase HCV Program lease-up rates by establishing payment standards that will enable families to rent throughout DHC's jurisdiction. DHC may with HUD approval utilize up to 120% of the fair market rents, as applicable, to allow families to select units in low-poverty or non-minority areas.

Chapter 5, Section 5-1B(2) (Briefing, Oral Briefing)

Each briefing must provide information on the following subjects:

- How the HCV Program works;
- Family and owner responsibilities;
- Where the family can lease a unit, including renting a unit inside or outside DHC's jurisdiction;
- An explanation of portability. DHC will not discourage eligible families from moving under portability; and

- An explanation of the advantages of moving to areas outside of high-poverty concentrations.

Chapter 5, Section 5-1B(3) (Briefing, Briefing Packet)

The documents and information provided in the briefing packets will comply with all HUD requirements. Documents and information provided in the briefing packet must include the following:

…

- A list of landlords or other parties willing to lease to assisted families or help families find units, especially outside areas of poverty or minority concentration.

Chapter 5, Section 5-1B(4) (Briefing, Expanding Housing Opportunities)

To expand housing opportunities DHC will include the following information in the briefing packet:

- Maps showing areas with housing opportunities outside areas of poverty or minority concentration, both within its jurisdiction and its neighboring jurisdiction.
- Information about the characteristics of these areas including job opportunities, schools, transportation and other services.
- An explanation of how portability works, including a list of portability contact persons for neighboring PHAs including names, addresses, and telephone numbers.

Chapter 5, Section 5-2F(3) (Voucher Term, Extensions, and Suspensions; Assistance to Voucher Holders During Search)

Voucher holders will be notified at the briefing that DHC periodically updates the listing of available units and how the updated list may be obtained. DHC will assist families with negotiations with owners and provide other assistance related to the families' search for housing, including assistance in locating units outside of areas of high poverty concentration. DHC recommends the family maintain a search record. It may be useful if the family requests an additional extension. DHC shall uniformly limit the number of offers received by applicants. Nothing in the deconcentration policy relieves DHC of the obligation to meet the income targeting requirements.

Chapter 13, Section 13-1A(1) (Owner Recruitment and Retention; Recruitment)

DHC is responsible for ensuring that a sufficient number of owners, representing all types and ranges of affordable housing in DHC's jurisdiction, are willing to participate in the HCV Program.

DHC will conduct owner outreach to ensure that owners are familiar with the HCV Program and its advantages. DHC will actively recruit property owners with property located outside

areas of poverty and minority concentration. These outreach strategies will include, but are not limited to:

- Distributing printed material about the program to property owners and managers;
- Contacting property owners and managers by phone or in-person;
- Holding owner recruitment/information meetings at least once a year;
- Participating in community based organizations comprised of private property and apartment owners and managers; and
- Developing working relationships with owners and real estate brokers associations.

Chapter 15, Section 15-2F(1) (Homeownership Counseling)

Before commencement of homeownership assistance for a family, the family must attend and satisfactorily complete a minimum of the regular eight hours of pre-purchase homeownership counseling and any individually required counseling sessions.

DHC or its counseling partner will require, at a minimum, the following pre-assistance counseling program:
…

- Advantages of purchasing a home in an area that does not have a high concentration of low-income families and how to locate homes in such areas;

Chapter 16, Section 16-2B(1)(e) (Payment Standards; Updating Payment Standards; Unit Availability)

When HUD updates its FMRs, DHC must update its payment standards if the standards are no longer within the basic range [24 CFR 982.503(b)]. HUD may require DHC to make further adjustments if it determines that rent burdens for assisted families in DHC's jurisdiction are unacceptably high [24 CFR 982.503(g)].

DHC will review the appropriateness of the payment standards on an annual basis when the new FMRs are published. In addition to ensuring the payment standards are always within the "basic range", DHC will consider the following factors when determining whether an adjustment should be made to the payment standard schedule.
…
DHC will review the availability of units for each unit size particularly in areas with low concentrations of poor and minority families.

Chapter 18, Section 18-2A(1) (Selection of PBV Proposals; Selection Process)

DHC may use a direct competitive process to select projects to receive project-based vouchers. DHC will use a competitive process when DHC has determined that it wishes to set aside a given number if vouchers for projects being developed within its jurisdiction to further the goals of deconcentrating poverty, creating sustainable, affordable housing and furthering local economic opportunities.

Chapter 18, Section 18-2A(1)(a) (Selection of PBV Proposals; Selection Process; Proposals for Rehabilitated and Existing Units)

A review team consisting of DHC staff will review the proposals, make a determination as to acceptability and score and rank them. DHC will review the proposals using the following criteria:

…

- The extent to which the project furthers DHC's goal of de-concentrating poverty and expanding housing and economic opportunities;

Chapter 18, Section 18-2A(2) (Selection of PBV Proposals; Non-Competitive Proposals Subject to a Previous Competition Under a Federal, State or Local Housing Assistance Program)

DHC will accept PBV proposals, on an ongoing basis, from projects where the proposal has been selected, within three (3) years of the PBV proposal selection date, by a federal, state, or local government housing assistance, community development, or supportive services program that requires competitive selection of proposals (e.g., HOME, and units for which competitively awarded LIHTC's have been provided), and the earlier competitively selected proposal did not involve any consideration that the project would receive PBV assistance.

…

Proposals will be reviewed on a first-come, first-served basis. DHC will evaluate each proposal on its merits using the following criteria:

- The extent to which the project furthers DHC's goal of de-concentrating poverty and expanding housing and economic opportunities; and
- Such other factors as DHC may deem appropriate.

Chapter 18, Section 18-2H(1) (Site Selection Standards)

1. Compliance with PBV Goals, Civil Rights Requirements, and HQS Site Standards [24 CFR 983.57(b)]

It is DHC's goal to select sites for PBV housing that provide for deconcentrating poverty and expanding housing and economic opportunities. In meeting this goal, DHC will limit approval of sites for PBV housing to census tracts that have poverty concentrations of 10% or less as HUD defines areas of 10% or less of poverty to be de-concentrated areas. However, DHC will grant exceptions to the 10% standard where DHC determines that the PBV assistance will complement other local redevelopment activities designed to de-concentrate- poverty and expand housing and economic opportunities in census tracts with poverty concentrations greater than 10%, such as sites in:

- A census tract in which the proposed PBV development will be located in a HUD-designated Enterprise Zone, Economic Community, or Renewal Community;
- A census tract where the concentration of assisted units will be or has decreased as a result of public housing demolition and HOPE VI redevelopment;
- A census tract in which the proposed PBV development will be located is undergoing significant revitalization as a result of state, local, or federal dollars invested in the area;
- A census tract where new market rate units are being developed where such market rate units will positively impact the poverty rate in the area;
- A census tract where there has been an overall decline in the poverty rate within the past 5 years;
- A census tract where there are meaningful opportunities for educational and economic advancement;
- Redevelopment and reuse of existing building not previously used as housing; or
- Development of unique affordable housing types not currently offered or offered on a limited basis within DHC's jurisdiction.

2. Existing and Rehabilitated Housing Site and Neighborhood Standards [24 CFR 983.57(d)]

DHC will not enter into an agreement to enter into a HAP contract nor enter into a HAP Contract for existing or rehabilitated housing until it has determined that the site complies with HUD required site and neighborhood standards. The site must:

- Be adequate in size, exposure, and contour to accommodate the number and type of units proposed;
- Have adequate utilities and streets available to service the site;
- Promote a greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons;
- Be accessible to social, recreational, educational, commercial, and health facilities and services and other municipal facilities and services equivalent to those found in neighborhoods consisting largely of unassisted similar units; and
- Be located so that travel time and cost via public transportation or private automobile from the neighborhood to places of employment is not excessive.
    - Have an architect's certification affirming that the project meets accessibility requirements.

3. New Construction Site and Neighborhood Standards [24 CFR 983.57(e)]

In order to be selected for PBV assistance, a site for newly constructed housing must meet the following HUD required site and neighborhood standards:

- The site must be adequate in size, exposure, and contour to accommodate the number and type of units proposed;

- The site must have adequate utilities and streets available to service the site;
- The site must not be located in an area of minority concentration unless the PHA determines that sufficient, comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration or that the project is necessary to meet overriding housing needs that cannot be met in that housing market area;
- The site must not be located in a racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area;
- The site must promote a greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons;
- The neighborhood must not be one that is seriously detrimental to family life or in which substandard dwellings or other undesirable conditions predominate;
- The housing must be accessible to social, recreational, educational, commercial, and health facilities and services and other municipal facilities and services equivalent to those found in neighborhoods consisting largely of unassisted similar units; and
- Except for housing designed for elderly persons, the housing must be located so that travel time and cost via public transportation or private automobile from the neighborhood to places of employment is not excessive.
